Wael Ibrahim Abu Khzam

Director and member of the Audit and Risk Committee and Nomination and Remuneration Committee

REPORT OF THE BOARD OF DIRECTORS

Dear Shareholders,

The Directors of the Arab Insurance Group (B.S.C.) (Arig) presents the Company's 38th Annual Report along with the audited Consolidated Financial Statements for the year ended 31 December 2018.

GROUP PERFORMANCE

2018 witnessed a decline in our financial performance for the year and recorded a net loss of US\$ 55.3 million attributable to shareholders (2017: Net Profit US\$ 7.2 million). The loss is mainly due to continued poor performance of our Lloyd's portfolio and a provision for probable loss estimates for our subsidiary, Gulf Warranties W.L.L. In contrast, the technical result¹ of our Non-Lloyd's portfolio was positive. On a positive note our discontinued Takaful Re portfolio continued its smooth run-off and contributed US\$ 3.6 million (2017: US\$ 1.2 million).

In September 2018, A.M. Best downgraded Arig's Financial Strength Rating (FSR) to B++ (Good) from A- (Excellent), the Long-Term Issuer Credit Rating (Long-Term ICR) to "bbb+" from "a-" and revised the outlook of our Long-Term ICR from stable to negative. The outlook of the FSR remained, however, stable. The downgrade was to a large extent related to irregularities discovered at our subsidiary Gulf Warranties W.L.L.

The Group reported total investment income of US\$ 10.0 million (2017: US\$ 22.5 million). The result reflects the significant downturn in global investment markets.

The consolidated combined ratio² as at the end of the reporting period 2018 was 115.2% (2017: 104.1%).

ARIG'S REINSURANCE POSITION

The reinsurance market remained quite challenging in 2018. Although, reinsurance terms and conditions were more or less flat during the treaty renewal season 2018 and reinsurer could in most cases resist pressure to reduce rates on the facultative side, the market continued to be competitive and insurance and reinsurance rates stayed at the bottom-end of the scale. This was particularly true for markets in the MENA region.

The Group's gross written premium increased to US\$ 262.8 million (2017: US\$ 225.6 million) mainly contributed by Lloyd's portfolio, which increased to US\$ 125.6 million (2017: US\$ 88.6 million). The increase was driven by efforts to restructure the portfolio. We exited from the loss-making Syndicate, which produced more than 50% of the past negative results of our Lloyd's portfolio and shifted our participation towards more promising Syndicates.

The downgrade by A.M. Best had put an extra layer of pressure on the Company and reduced our capabilities to write business in certain markets and/or particular cedants or insureds, nevertheless, overall gross written premium of our Non-Lloyd's business during 2018 remained almost unchanged at US\$ 137.2 million (2017: US\$ 137.0 million). Non-Life business increased slightly to US\$ 118.6 million (2017: US\$ 115.9 million), while Life business experienced a reduction of their gross written premium to US\$ 18.6 million (2017: US\$ 21.2 million).

The overall technical result of the Group was negative by US\$ 19.4 million (2017: positive US\$ 5.5 million). The adverse performance was mainly due to our Lloyd's portfolio, which closed with a negative result of US\$ 28.3 million (2017: US\$ loss of 19.6 million). The result represents a mixture of losses attributable to previous underwriting years mostly 2016 and 2017 and partly to underwriting year 2018.

The technical result of our Non-Life treaty portfolio improved its performance to US\$ 14.5 million (2017: US\$ 2.8 million). Our Non-Life facultative portfolio showed, unlike previous years, a negative technical result of US\$ 11.2 million (2017: Positive US\$ 21.2 million). Mainly our Property and Engineering book of business were affected by several major losses such as National Petrochemical, KSA by US\$ 5.6 million, Gama Enerji, Turkey by US\$ 3.5 million and the exceptional ADNOC, UAE claim, for which reserve increased by a gross amount of US\$ 16.8 million (net US\$ 5.2 million).

The Life business continued to perform quite well with a positive technical result of US\$ 5.7 million (2017: US\$ 1.1 million).

OUTLOOK

Arig is historically well established in the MENA region, Africa, Indian Sub-Continent and to a certain extent South East Asia and the Far East. Reinsurance business is known to be a business of trust and as such a business of long-term relationships. Arig has since its early days worked hard on building up a good reputation in its markets, starting by establishing a fast and reliable claims payment culture and a close customer friendly market approach. We are intending to utilize our market standing even further and concentrate our main efforts and services on markets we know best.

The performance of our Lloyd's book of business was without doubt not satisfactory. Arig's management has introduced corrective measures in the underwriting years 2018 and 2019 including reduced overall involvement of Arig in Lloyd's in 2019. The Board is monitoring the development of this particular portfolio closely. A strong shift in performance is the clear objective for 2019.

¹ technical result: net earned premiums less claims and acquisition costs

² combined ratio: aggregate of expenses and losses over net earned premiums

Saeed Mohammed AlBahhar

Chairman

ACKNOWLEDGEMENTS

The Board takes this opportunity to express its gratitude to His Majesty the King, His Royal Highness the Prime Minister and His Royal Highness the Crown Prince for their wise leadership and encouragement for the insurance sector of the Kingdom of Bahrain. The Directors further extend their thanks to our business partners, clients, shareholders and the Central Bank of Bahrain for their support and cooperation throughout the year.

On behalf of the Board of Directors

Mr. Saeed Mohammed AlBahhar

Chairman

13 February 2019

OPERATING AND FINANCIAL REVIEW

Samuel Vergheze

Acting Chief Executive Officer

BUSINESS REVIEW

Portfolio Development

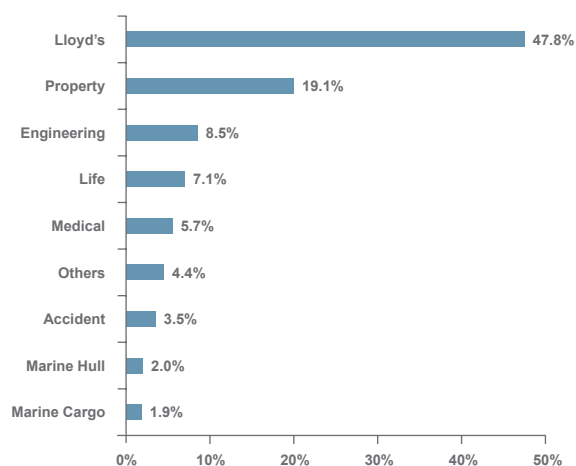

The Company's gross premiums written in 2018 reached US\$ 262.8 million (2017: US\$ 225.6 million) representing an increase of 16.5%. The growth was mainly due to participation at Lloyd's. In line with the Group's strategy, the non-Lloyd's facultative portfolio increased in 2018 by 9.0% from US\$ 32.4 million to US\$ 35.3 million. However, the rating downgrade in September 2018 limited its development. The non-Lloyd's treaty book remained stagnant mainly due to the impact of weakening of the Turkish Lira against the US dollar.

Overall, the property business accounted for 42.4% of the total non-life non-Lloyd's book of business followed by engineering and medical respectively with 18.8% and 12.6%. The Life portfolio meanwhile, experienced a 12.3% drop in 2018 reducing to US\$ 18.6 million from US\$ 21.2 million.

Territorial split of Gross Written premium income

Individual line contributions to Group's Gross Written premium income

Performance

The overall technical result for the Group was negative at US\$ 19.4 million (2017: profit US\$ 5.5 million). Our Lloyd's book reported a loss of US\$ 28.3 million (2017: loss of US\$ 19.6 million) mainly due to significant losses for underwriting years 2016, 2017 and 2018. The major impact was attributable to natural catastrophe losses in the US. The Company has reviewed its Lloyd's portfolio during 2019 renewal and reduced its exposure to this market.

The Non-Lloyd's book also contributed to the loss mainly driven by our facultative business which generated a technical loss of US\$ 11.2 million (2017: profit of US\$ 21.2 million).

Property business reported a technical loss of US\$ 10.9 million mainly on account of major fire losses in the GCC.

The Overall non-life treaties excluding Lloyd's business produced a profit of US\$ 14.5 million for the year (2017: US\$ 2.8 million) with Accident and Engineering lines contributing a technical profit of US\$ 7.0 million and US\$ 3.0 million respectively.

The life business performed well, compared to the previous year, contributing technical profit of US\$ 5.7 million (2017: US\$ 1.1 million).

Run-off of our subsidiary Takaful Re's portfolio which ceased operations in 2015 was in line with our exit strategy and contributed US\$ 3.6 million to the Group's results (2017: US\$ 1.2 million).

Group Technical Result by source (in US\$ 000)

Group Technical Result by line (in US\$ 000)

Risk Capital Position

As has been the Company's practice, we commissioned independent external actuaries to provide an updated estimate of the amount of capital required to cater for risk events throughout the Group's operations at a 1:200 probability, or 99.5th percentile. Arig's Economic Capital shows redundancy against the Company's shareholders equity at this confidence level.

This demonstrates that the Group is offering substantial financial security to its clients, even in a stressed model scenario. Arig's reinsurance book has seen limited changes over the position one year ago. Key drivers for the Group's risk capital are underwriting risk and reserve risk, followed by market risk, operational risk and credit risk. During 2018, market risk and reserve risk decreased moderately, while underwriting risk and credit risk increased slightly. The combined movements resulted in a moderate decrease in the Group's Economic Capital requirement.

As endorsed by actuarial analysis, we remain highly confident that the diversity and the quality of the Group's portfolio provides solid protection to Arig's reinsured clients and shareholders' capital alike.

Outlook

The Group has reevaluated its participation in the Lloyd's syndicates and introduced corrective measures to limit our exposure going forward. In view of the challenges posed in developing new markets following the rating downgrade last September, the Company will enhance efforts in its core markets leveraging on its strong relationship base, years of experience and technical knowhow. The Company is also reviewing its underwriting approach with greater emphasis on returns being commensurate with the risks, given that premium rates below technical levels. Return on investment and protection of Shareholder's funds remains the utmost priority along with continuing efforts to balance costs and operational efficiencies.

INVESTMENT

The year 2018 was a challenging year in the financial markets. An ongoing trade dispute between the USA and China, concerns on the extent of interest rate tightening in the US and geopolitical issues in various parts of the world, affected sentiment. Global equities corrected substantially in the fourth quarter of the year. There was a flight to safety out of riskier assets and into US Treasuries. A measure of market volatility, the VIX Index, which was range bound in 2016 and 2017, spiked substantially.

The Federal Reserve continued its policy of monetary tightening. The benchmark Fed Funds Target rate was increased four times in the year. Consequently, short term interest rates rose in the USA. Three-month US\$ LIBOR closed at a multi-year high.

The monetary policies of other Central Banks continued to diverge with US monetary policy. The ECB kept key interest rates unchanged. The Bank of England raised its Official Bank Rate once while the Bank of Japan maintained its Short-term Rate target at minus 0.1%. The interest rate differential between the major currencies buoyed the US Dollar. The DXY Index gained 4.4%.

The actions of the Central banks influenced yield levels on government bonds. The benchmark ten-year US Treasury Note closed up twenty-seven basis points in yield at 2.68%. European government bonds with a tenor of seven years or less recorded negative yields. The Bank of Japan maintained a target yield of 0% for ten year Japanese Government Bonds.

A stronger dollar impacted emerging markets. There was an outflow both out of emerging market stocks and bonds. The JP Morgan Emerging Markets Bond Index lost 4.61%. Crude Oil (Brent) had a roller coaster year. After strengthening 23.7% in the first nine months of 2018, the commodity closed downward by 19.5% for the year. Gold the traditional haven, underperformed. In summary, it was a negative year for most asset classes. We continue to be conservative in our allocation. In line with the risk tolerance of the Group, our investment strategy remained unaltered. In this extreme year, our strategy enabled us to minimize losses. The Group's investments stood at US\$ 613.9 million (2017: US\$ 665.1 million) with 86% allocated to cash, short-term securities, and bonds. The Group generated an income of US\$ 10 million in 2018. (2017: US\$ 22.5 million).

At the time of this report, equity markets have recovered from the sell-off of the fourth quarter. The dollar has weakened slightly, and riskier assets such as emerging markets are attracting sizeable inflows. The level of returns on investment grade, short duration fixed income securities continues to be low by historical standards. This phenomenon continues to challenge fixed income investors like Arig.

We will continue to manage a diversified low-risk portfolio within the Company's avowed investment risk appetite, carefully balancing market opportunities against our standing obligation to policyholders and shareholders. We are probably at an inflection point in the global economic cycle. Risks are significant to the downside. We will continue to be cautious and will focus on safety and preservation of capital.

SUBSIDIARIES

Takaful Re Limited (TRL)

The Group's Islamic reinsurance subsidiary, TRL, which was placed in run-off in April 2016 reported a net profit of US\$ 6.7 million (2017: US\$ 2.3 million) for the year. Arig's share in the profit was US\$ 3.6 million (2017: US\$ 1.2 million).

TRL's investments yielded an average return of 1.4% (2017: 1.5%) with investment earnings of US\$ 0.9 million (2017: US\$ 1.3 million). The Company investments assets were almost entirely held in cash and short-term Islamic deposits.

Gulf Warranties (GW)

Gulf Warranties, the Group's subsidiary involved in administration of extended warranty insurance, contributed a loss of US\$ 23.7 million to the Group's results for the year (2017: loss US\$ 0.1 million) as a result of fraud committed by employees of the subsidiary. Based on management's assessments, the entire probable loss estimates of US\$ 21.5 million have been provided for in the books of the subsidiary and consequently in the consolidated financial statements of the Group. This does not constitute admission of any liability beyond the share capital of Gulf Warranties W.L.L. On 15 November 2018, the Board of Directors of the Company decided not to write any further business and recommended the liquidation of the Company.

Arig Capital Limited (ACL)

ACL is a registered and fully owned corporate member at Lloyd's of London that allows Arig to share in business written by Lloyd's syndicates. In the year 2018 ACL wrote business through four syndicates namely 1969, 1200, 1910 and 2014 as well as two SPA's 6118 and 6133, generating gross written premiums of US\$ 125.5 million (2017: US\$ 88.6 million). ACL retains limited risk for its net account and cedes most of its business to the parent company. ACL recorded a loss of US\$ 1.3 million for the year (2017: net loss US\$ 2.7 million) mainly impacted by losses attributable to prior underwriting years 2016 and 2017.

Arig Insurance Management (DIFC) Limited

The Group's Insurance Management subsidiary, Arig Insurance Management (DIFC), incorporated in Dubai International Financial Center has been placed under voluntary liquidation.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE REPORT

Arig is committed to follow international Best Practices of Corporate Governance. We firmly believe that there is a link between strong ethical standards, good governance and the creation of shareholder value. In our communication with stakeholders and the general business community, we aim to be fully transparent through high standards of disclosure.

Bahrain Corporate Governance Code

The Company follows the Bahrain Corporate Governance Code ("Code"). This Corporate Governance Report is also included as a separate item as part of agenda for the Annual General Meeting.

Framework

The Company, through its Board of Directors, maintains a governance framework in all areas of its operations, which includes formalized policies, procedures, guidelines and relevant management reporting requirements. Arig's governance practices are reviewed on a regular basis and amended from time to time.

The Board of Directors

The members of the Board are elected and can be terminated by the shareholders of the Company in accordance with the provisions under the Articles of Association. The Board holds the ultimate responsibility for the overall direction, supervision and control of the Company. It regularly assesses the Company's financial and commercial performance and approves its business plan. The Board continuously oversees the corporate governance processes in order to ensure good standards within the Company. The Board further reviews and assesses the adequacy of the management of all risks the Company may be exposed to.

The current Board was elected by the shareholders at the Annual General Meeting in March 2017 for a period of three years and its term will end at the 2020 Annual General Meeting. Formalized Board procedures enhance the professional development of the Board members and include induction training to new directors, continuous learning and self-evaluation. The names of the current directors and biographical details are set out in page 22.

Members of the Board are all non-executive. Three out of six-members are independent non-executive directors. The Board formally reviews and evaluates its own performance together with the performance of the individual directors, as required by the Code.

Board Committees

While principal matters are handled by the Board, separate Committees are mandated to assist the Board in carrying out its duties in an efficient manner. The Audit and Risk Committee oversees financial reporting, internal controls, risk management and compliance. The Nomination and Remuneration Committee is tasked to review the nomination and compensation of the Board of Directors and the members of the Company's General Management. All Board Committees meet periodically to achieve their objectives and also annually assess their own efficiency.

Board Meetings

According to the Articles of Association and local regulations, the Board is required to meet at least four times in a year. In addition to the six meetings held in person during 2018, the Board approved the first and the second quarter results through circular resolution.

The following table lists the number of meetings held during 2018, including Board Committees and the individual attendance:

Directors	Board Meetings (6)	Audit and Risk Committee (7)	Nomination and Remuneration Committee (5)
Saeed Mohammed AlBahhar *	6	N	5
Mohamed Saif AlHameli	5	N	N
Mohamed Saif AlSuwaidi	6	N	5
Ahmed Saeed AlMahri *	6	7	5
Dr. Bader Abdulla AlJaberi *	5	5	4
Wael Ibrahim Abu Khzam	5	6	4

* - Independent Non-Executive Director
• N- Not a member

Management

Responsibilities of the Chairman and the Chief Executive Officer (CEO) are separated. The Chairman of the Board is responsible for the leadership of the Board, ensuring its effectiveness in all aspects of its role and setting its agenda, taking into account the issues relevant to the Company and the concerns of all Board members.

The CEO executes leadership in the day-to-day management of the Company. The General Management team headed by CEO is responsible for the implementation of the Board strategies and the monitoring of its day-to-day operations. The team includes the General Manager – Reinsurance, Deputy General Manager – Finance and Administration, and Assistant General Manager – Reinsurance as its member.

During the year 2018 the Board has decided to end the contract of the CEO and appointed the Deputy General Manager – Finance and Administration as acting CEO until a new CEO takes charge.

The names of members of the General Management Team are set out in page 23 together with their biographical details.

Directors' and General Management Compensation

The Directors' remuneration is determined in accordance with the Bahrain Commercial Companies Law and the provision under the Company's Articles of Association, and is approved by the shareholders. Directors' compensation includes remuneration, allowances and reimbursement of expenses. The compensation of the General Management is determined by the Board of Directors based on the recommendations of the Nomination and Remuneration Committee, and includes salaries, allowances, reimbursement of expenses, post-employment benefits and performance related incentives (for further information refer page 75). Details as required under the Code are held at Company's premises for the availability of the shareholders.

Organizational Structure

The Company has put in place a detailed organizational structure (shown on page 21) to achieve the Company's objectives, its strategic development and internal controls.

Management Committees

In order to assist the CEO in guiding and monitoring the functional departments within the Company, a number of internal management Committees are operative, in addition to Group Management Committee.

These include the areas of Reinsurance Management, and Retrocession. Members are drawn from within the Company and in accordance with their relevant areas of expertise.

Succession Planning

The Company recognises the value of its human resource and the significance of ensuring qualified and orderly successions. It operates a succession planning framework covering key positions within the Company, and talent development programs based on periodical training needs analysis. The Nomination and Remuneration Committee is in charge of reviewing and approval of the succession plan.

Policy on the Employment of Relatives

As required by the CBB Rulebook, the Company has formulated a policy on the employment of relatives of the approved persons.

Key Persons Dealing in Arig Securities

Arig has an established policy with regard to key persons dealing in Arig securities, which complies with the Bahrain Bourse guidelines and the Rulebook Volume 6 (Capital Markets) issued by the Central Bank of Bahrain. During the year, the Company has complied with relevant reporting and monitoring requirements as they are stipulated under these regulations.

Following are the details of Arig shares held by members of the Board, including their representatives, and members of the General Management, including their spouses, children or other persons under their control:

	Directors	General Management
Shares held at 1-1-2018	100,781,539	-
Add: Shares acquired during the year	-	-
Less: Shares transferred during the year	-	-
Shares held at 31-12-2018	100,781,539	-

Investor Relations

Arig makes considerable effort to maintain active investor relations through open, fair and transparent communication. A dedicated shareholder affairs unit is responsible for the timely dissemination of all relevant information to its stakeholders. The Company's website (www.arig.net) provides detailed information on corporate governance, business and financial information and includes a secure portal for shareholders.

The Annual General Meeting of shareholders is held within 90 days of the end of the financial year in accordance with legal and regulatory requirements. Notice to the Annual General Meeting is released well in advance to shareholders, regulators and stock exchanges. Copies of the Annual Report and accounts are made available at least one week prior to the meeting ensuring that shareholders have sufficient time to prepare for the discussion of the Company's performance with the Board of Directors.

Corporate Social Responsibility

Arig aspires to be a good corporate citizen. The Company operates a corporate social responsibility program, which directs its efforts towards worthy projects and individuals in need in Bahrain.

Capital and Shares

Arig's authorised capital is comprised of 500 million ordinary shares with a nominal value of US\$ 1 each. The issued, subscribed and paid-up capital is US\$ 220 million. Shares are held by 4,478 shareholders mostly throughout the GCC countries. These are tradable by people of any nationality through the stock exchanges where Arig is listed: the Bahrain Bourse and the Dubai Financial Market. Further shareholding information is given on page 59 of this Annual Report.

Compliance

Arig has established a Board approved comprehensive compliance framework covering all rules and regulations applicable to the Company's business operations. The Company has a separate compliance unit headed by a Compliance Officer who reports to the Audit and Risk Committee of the Board of Directors. This unit ensures that Arig meets all regulatory requirements stipulated by the Central Bank of Bahrain and the Bahrain Ministry of Industry, Commerce and Tourism. It also makes sure that the Company is in compliance with all rules and regulations of the stock exchanges where Arig is listed. There were no financial penalties incurred during the year 2018.

Internal Control

The Board is holding the ultimate responsibility for the functioning of all internal controls within the Company. A network of policies, guidelines, procedures, authorisation levels and performance monitoring is operative in all areas of the Company's operations, including periodical reviews and updates, where appropriate. All significant authority limits for underwriting, claims and other operational areas are reviewed and approved by the Board. In daily operations, the CEO safeguards the application of all control mechanisms. He further ensures that a positive control environment is maintained through ethical corporate behavior and personal integrity. He provides leadership and direction to General Management and reviews the way the business is controlled. All transactions with related parties are conducted at arm's length.

On behalf of the Board, the Audit and Risk Committee periodically reviews the application of the Company's internal control framework and the assessments of these controls from the evaluation reports produced by Arig's internal and external auditors. The Committee then advises the Board of Directors on the status and effectiveness of the Company's control environment and necessary action taken by the management to strengthen any identified control weaknesses.

Enterprise Risk Management (ERM)

Arig applies a corresponding ERM regime that aims at closely monitoring the risks the Company could be exposed to and their potential effects on capital as well as financial and operational performance. Regular reviews by the Risk Management function and all layers of Arig's senior and middle management are carried out to assess the development and trends in the Company's exposures and, whenever possible and reasonable, introduce measures to mitigate the potential for negative effects.

The Company maintains an ERM framework under the responsibility of the Head of Risk Management who reports to the Audit and Risk Committee of the Board of Directors. The status quo is kept in a Risk Register, the positions of which are reviewed and actively managed with the goal to keep the use of capital at risk at efficient performance levels without over-exposing the shareholders' equity interest.

Arig makes use of leading international actuarial firms for independent professional advice who assist in maintaining its Internal Capital Adequacy (ICA) model, which will consider and quantify the capital amount required to support all identified risk exposures that are incurred as part of the Company's business operations.

Our key risk categories are underwriting risk, reserve risk, market risk, operational risk, credit risk and liquidity risk. Property reinsurance with its exposure to natural and man-made catastrophes represents the largest class in Arig's book; therefore, it comes as no surprise that underwriting risk dominates the quantum of our risk exposures. It is followed by reserve risk, which is a reflection of the Company's long-standing operating history and former activities in discontinued underwriting lines. Market risk, i.e. the risk of changes in the financial markets, ranks third and followed by operational risks. Credit risk takes the least amount of capital funding.

The Company has a number of risk avoidance and mitigation strategies in place to manage its key risk exposures.

- *Risk Appetite Statement* - Arig maintains a defined statement of its risk appetite expressing its maximum tolerance to losses for each of the main risk categories. The Risk Appetite Statement represents a key document in guiding the Company's business conduct which is reviewed periodically and approved by the Board of Directors.
- *Underwriting risk* is contained through a mixture of underwriting guidelines that are system and management controlled, pricing tools and reinsurance covers with highly rated retro markets to cap peak exposures.

- *Reserve risk* is managed through regular internal and external reviews to ensure that reserving is prudent and adequate. Our internal reviews are supported by an annually conducted, detailed estimation and report by professional actuaries.
- *Market risk* exposure is controlled by a basket of investment guidelines and policies that would include maximum allocations to asset classes, trend analyses, and performance monitoring tools, including stop loss disposal orders.
- *Operational risk* represents a basket of individual exposures, most of them relatively moderate in amount, which the Company closely monitors and strives to reduce individually. During the year an alleged failure has been detected in Gulf Warranties W.L.L. one of the subsidiaries of the Company. The Board has reviewed the internal controls in the subsidiary and has initiated measures to strengthen the internal risk framework.
- The risk of business interruption received Arig's full attention and will be quickly mitigated through the use of cloud computing facility from Microsoft called Azure Site Recovery (ASR). It allows Arig to replicate all production Virtual Machines (VM's) to a protected space on Azure 24/7 over two 100mbps lines. All business systems can be accessed remotely via Citrix within a very short period of time.
- *Credit risk* is managed by stringent counter-party checks and Arig's preference is to deal with solid and, for the most part, highly rated market entities. At the same time, receivables are monitored through ageing analysis and outstanding balances are actively pursued.
- Finally, *liquidity risk* represents the actual or perceived loss to the Group arising from a potential inability either to meet claims, investments or operational obligations. Arig's investment, claims management and liquidity risk management policies give due consideration to liquidity risk management and as a matter of prudence Arig maintains liquid assets well above its annually modelled liquidity requirements.

External Auditors

External auditors are appointed by the shareholders through the General Assembly. PricewaterhouseCoopers ME Limited of Bahrain were reappointed as external auditors for the Financial Year 2018 based on the decision of the General Assembly, as delegated to the Board.

Security Ratings

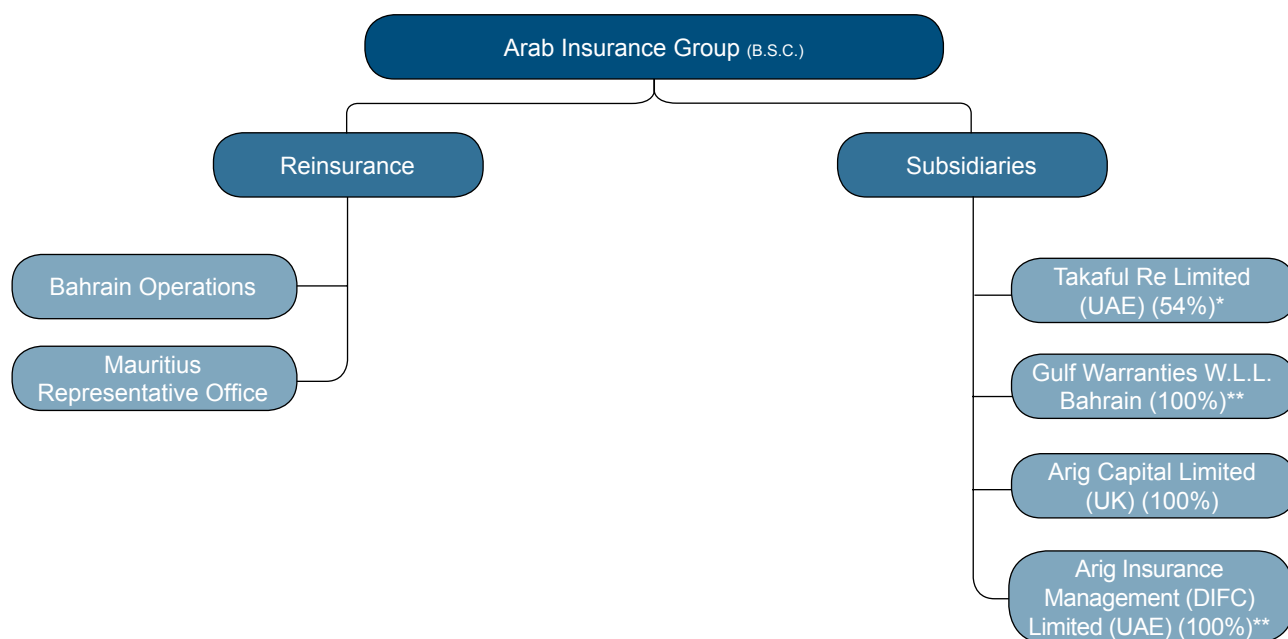

A.M. Best through its most recent rating published on Arig on 6 September 2018, has downgraded the Financial Strength Rating to "B++ (Good)" from "A- (Excellent)" and the Long-Term Issuer Credit Rating to "bbb+" from "a-". The outlook of the long term ICR has been revised to negative from stable while the outlook of FSR remains stable. The downgrade reflects A.M. Best revised view of the Company's ERM following the failures in its framework highlighted by the failure in one of its subsidiaries – Gulf Warranties W.L.L.

Statutory Solvency

Statutory Solvency requirements are determined by Arig's regulator in Bahrain, the Central Bank of Bahrain. The minimum solvency is defined with reference to a prescribed premiums and claims basis. The solvency position of the Company as at 31 December 2018 is given below:

	(in US\$ '000)	
	2018	2017
Capital available	153,238	202,119
Required margin of solvency	36,177	36,315
Total excess capital available over the required margin of solvency	117,061	165,804

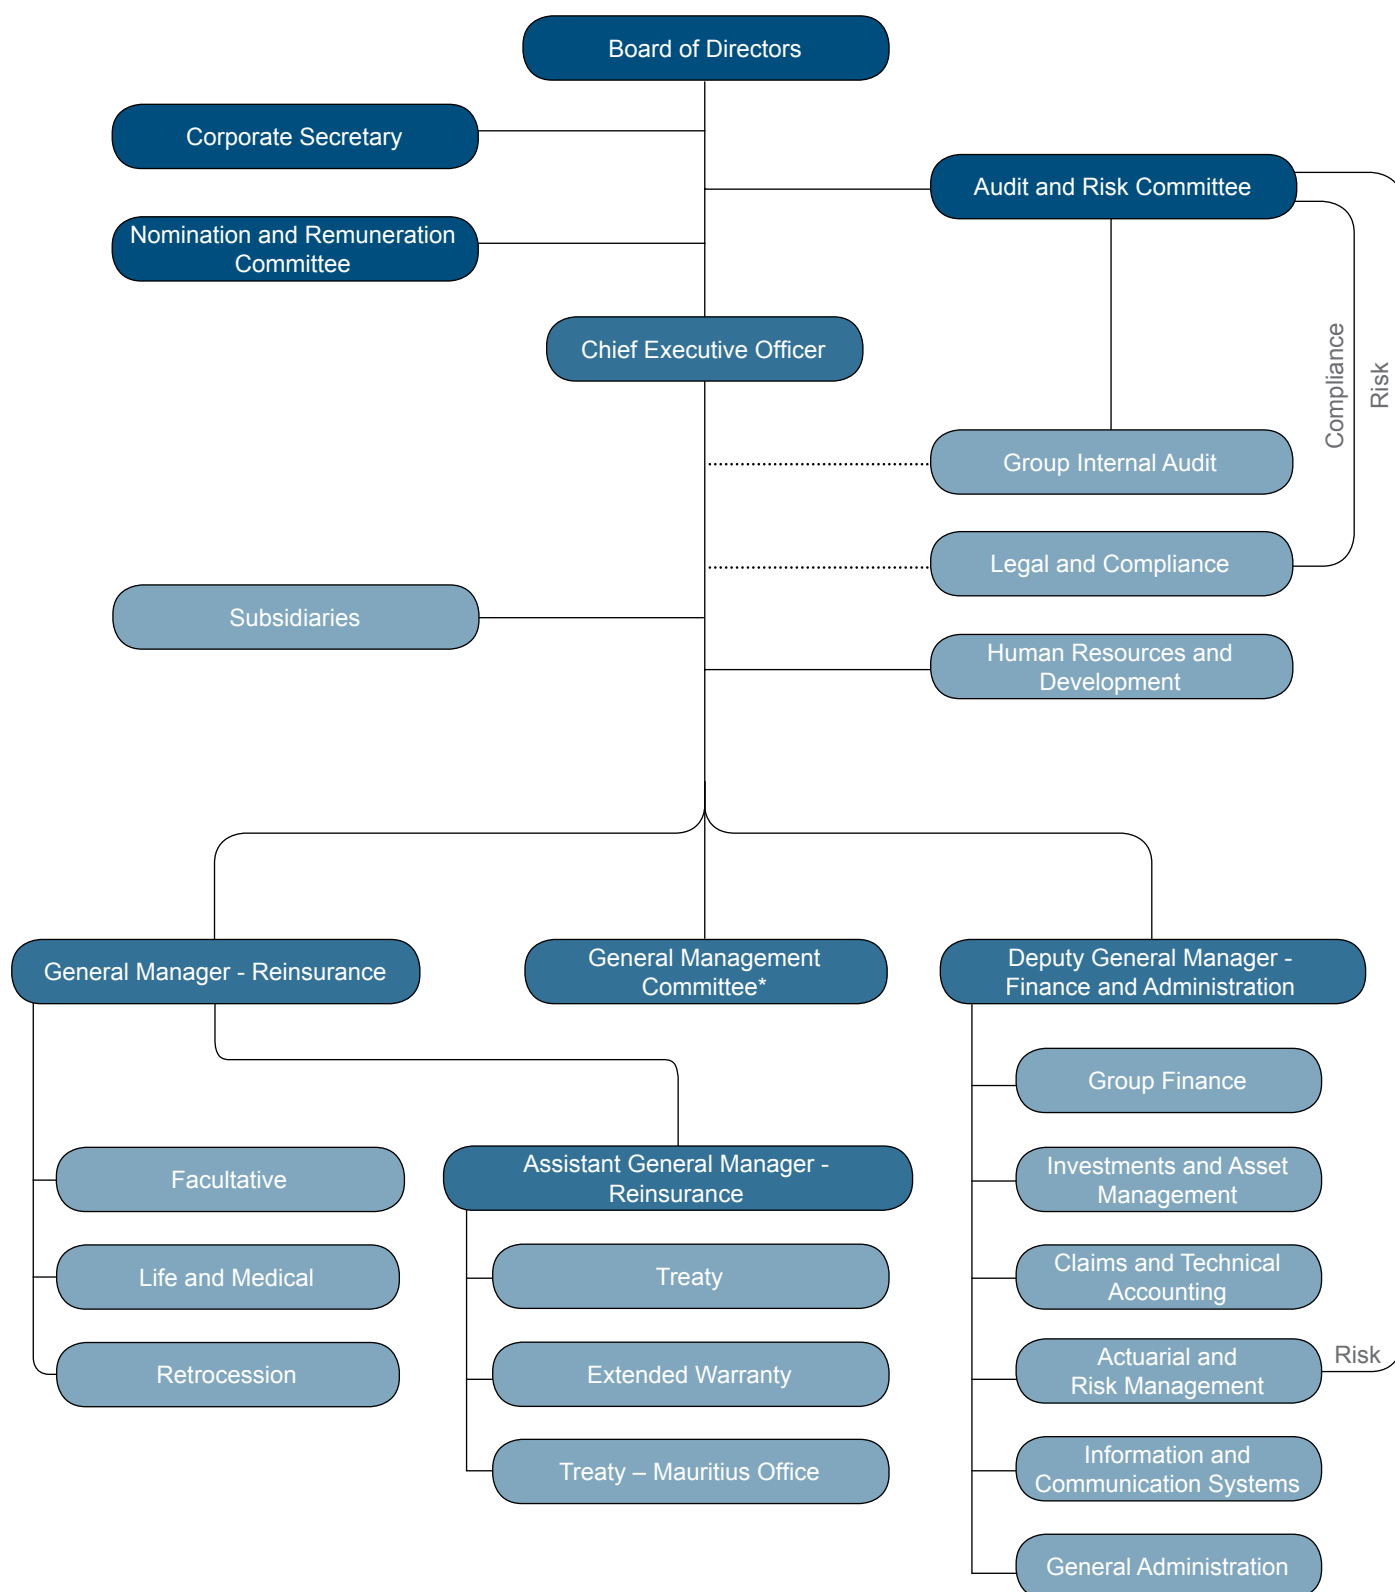

ARIG GROUP STRUCTURE

* Takaful Re Limited stopped writing business and is in run-off since December 2015.

** During 2018, Arig Insurance Management (DIFC) Limited has been placed under voluntary liquidation while Gulf Warranties W.L.L. has been recommended for voluntary liquidation.

ORGANISATION CHART

* General Management Committee members are CEO, GM – Reinsurance, DGM – Finance and Administration and AGM - Reinsurance

INDEPENDENT AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ARAB INSURANCE GROUP B.S.C. REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Arab Insurance Group B.S.C. (the "Company") and its subsidiaries (together the "Group") as at 31 December 2018, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

What we have audited

The Group's consolidated financial statements comprise:

- the consolidated statement of financial position as at 31 December 2018;
- the consolidated statement of income for the year then ended;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the ethical requirements that are relevant to our audit of the consolidated financial statements in the Kingdom of Bahrain. We have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our audit approach

Overview

Key Audit Matters

- Valuation of technical provisions
- Accuracy of ultimate premiums
- Recoverability of insurance receivables
- Valuation of investments
- Fraud committed at a subsidiary level

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated financial statements. In particular, we considered where the directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ARAB INSURANCE GROUP B.S.C. (Continued)

Key audit matter	How our audit addressed the Key audit matter
<p>Valuation of technical provisions</p> <p>At 31 December 2018, the technical provisions relating to insurance liabilities amounted to US\$ 684.6 million. We consider this as a key audit matter because the determination of technical provision includes significant judgement and estimates, in particular in respect of claims that have been incurred at the financial position date but have not been reported to the Group.</p> <p>The ultimate amount of claims paid could vary materially from the amount estimated as of the reporting period date due to a number of factors including:</p> <ul style="list-style-type: none"> • delays or insufficient information reported by the insured or ceding companies in relation to loss incurred at the reporting date • changes to the estimates received from loss adjusters • final outcome of claims subject to litigation <p>Refer to notes 2, 3 and 14 to the consolidated financial statements for accounting policy, disclosures of judgements and estimates and other details relating to technical provisions.</p>	<p>In relation to the matters set out opposite, our audit response included the following:</p> <ul style="list-style-type: none"> • We assessed and tested the operational effectiveness of a sample of key controls in the Group's claims handling and reserving process, including the review and approval of the reserves, controls over the completeness and accuracy of the claims estimates recorded and controls over the input, adjustment and extraction of data from the claims systems. • Substantive tests were performed on the amounts of claims recorded for a sample of claims notified, to assess whether claims are appropriately estimated and recorded. • We considered the results of the third-party actuarial review of the loss and loss adjustment reserves as at the reporting date. Supported by our actuarial specialists, we evaluated management's methodology against industry practice and challenged management's assumptions and their assessment of major sensitivities. The main areas of judgement include the loss development patterns selected and the initial expected loss ratios. • We also assessed the adequacy of disclosure in the consolidated financial statements.

<p>Accuracy of ultimate premiums</p> <p>We focused on this area because there is significant judgement and estimation involved in determining the ultimate premiums.</p> <p>Premium revenues are initially recognised based on estimates of ultimate premiums. This occurs for contracts where pricing is based on variables which are not known with certainty at the point of issuing the contract. Subsequent adjustments to those estimates, which arise as updated information relating to those pricing variables becomes available, are recorded in the period in which they are determined.</p> <p>Refer to notes 2, 3 and 22 to the consolidated financial statements for the accounting policy, disclosures of judgements and estimates and other details relating to ultimate premiums.</p>	<p>In relation to the matters set out opposite, our audit response included the following:</p> <ul style="list-style-type: none"> • We evaluated and tested a sample of key controls over the premium estimation process, which include the periodic review by management of estimated premiums, taking into account any third-party information received from intermediaries or insureds. • For a sample of contracts we assessed the estimated premium income, including considering the basis of estimation and corroborating evidence such as information from brokers/cedants and historical information. • We analysed the historical development of a sample of ultimate premium amounts on an underwriting year basis and compared it with the estimates recognised in corresponding financial years to identify if there is any indication of management bias. • We also assessed the adequacy of disclosure in the consolidated financial statements.
---	---

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ARAB INSURANCE GROUP B.S.C. (Continued)

Key audit matter	How our audit addressed the Key audit matter
<p>Recoverability of insurance receivables</p> <p>We focused on this area because estimation of the recoverable amount of insurance receivables and determination of the level of impairment allowance involves estimates and judgements.</p> <p>Insurance receivables are carried at anticipated realisable values after provision for impairment. A provision for impairment is established when there is evidence that the Group will not be able to recover all the amount due to financial difficulties of the counterparty.</p> <p>Refer to notes 2 and 9 to the consolidated financial statements for the accounting policy and disclosures relating to insurance receivables and the related impairment provisions.</p>	<p>In relation to the matters set out opposite, our audit response included the following:</p> <ul style="list-style-type: none"> • We evaluated and tested a sample of key controls over establishment of level of impairment required for insurance receivables. These include an annual exercise performed and reviewed by the management to assess the level of impairment required collectively and on a case by case basis. • We assessed the accuracy of the aging of insurance receivables and challenged management on the level of impairment on each 'bucket' of time proportionate aged balance. • Balance confirmations were circulated to a selection of parties and alternative procedures were performed where the response to the confirmation requests was not received. • We also assessed the adequacy of disclosure in the consolidated financial statements.
<p>Valuation of investments</p> <p>The Group holds a significant investment portfolio which represents 47% of the total assets. Consequently, the valuation of investments is a key area of audit focus.</p> <p>Refer to notes 2 and 6 to the consolidated financial statements for the accounting policy and disclosures in relation to investments.</p>	<p>In relation to the matters set out opposite, our audit response included the following:</p> <ul style="list-style-type: none"> • We tested on a sample basis the valuation of quoted and unquoted investments by matching the price with independent sources. • On a sample basis, we checked the calculation of the unrealised gains and losses recognised by Group. • We assessed how the Group reviewed investments for possible impairment and whether the Group policy for impairment was applied appropriately and consistently. • We also assessed the adequacy of disclosure in the consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ARAB INSURANCE GROUP B.S.C. (Continued)

Key audit matter	How our audit addressed the Key audit matter
<p>Fraud committed at a subsidiary level</p> <p>There has been fraud committed by employees of the Group's subsidiary, Gulf Warranties W.L.L. Based on management's assessments, the probable loss estimates of US\$ 21.5 millions have been provided for in the books of the subsidiary and in the consolidated financial statements of the Group.</p> <p>The ultimate amount of probable loss could vary materially from the amount estimated as of the reporting date due to various factors such as final claims and loss ratios. The impact from the fraud is considered significant to the whole Group considering its nature and amount.</p> <p>Refer to note 34 to these consolidated financial statements for disclosure.</p>	<p>In relation to the matter set out opposite, our audit response included the following:</p> <ul style="list-style-type: none"> • We have obtained management's evaluation relating to the fraud committed at the subsidiary's level. • We have performed testing procedures on the assessment including checking and testing the policies considered under the committed fraud. • On a sample basis, we have tested the adequacy of loss ratios that have been used by management for its assessment of the Claims and net exposure on the policies related to the fraud. • We have traced certain amounts paid in relation to the fraud, to respective bank statements. • We have obtained the independent legal confirmations of the existing litigations with the employees involved in the committed fraud and assessed their impact on the consolidated financial statements. • We have obtained the independent investigation report and compared its conclusion to the probable loss estimates recorded in the consolidated financial statements. • We also assessed the adequacy of disclosure in the consolidated financial statements.

Other information

The directors are responsible for the other information. The other information comprises the Directors' report (but does not include the consolidated financial statements and our auditor's report thereon) which we obtained prior to the date of this auditor's report, and the Annual Report which is expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ARAB INSURANCE GROUP B.S.C. (Continued)

Responsibilities of the directors and those charged with governance for the consolidated financial statements

The directors are responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards and for such internal control as directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF ARAB INSURANCE GROUP B.S.C. (Continued)

Auditor's responsibilities for the audit of the consolidated financial statements (Continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

As required by the Bahrain Commercial Companies Law and Volume 3 of the Central Bank of Bahrain (CBB) Rule Book, we report that:

- a. The Company has maintained proper accounting records and the consolidated financial statements are in agreement therewith;
- b. The financial information contained in the Directors' report is consistent with the consolidated financial statements;
- c. We are not aware of any violations during the year of the Bahrain Commercial Companies Law, the Central Bank of Bahrain and Financial Institutions Law, the Rule book (Volume 3, applicable provisions of Volume 6 and the CBB directives), the CBB Capital Markets Regulations and associated Resolutions, the Bahrain Bourse rules and procedures or the terms of the Company's memorandum and articles of association that would have had a material adverse effect on the business of the Company or on its financial position; and
- d. Satisfactory explanations and information have been provided to us by the directors in response to all our requests.

The engagement partner on the audit resulting in this independent auditor's report is Elias Abi Nakhoul.

The accompanying notes 1 to 37 are an integral part of these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

1. INCORPORATION AND PRINCIPAL ACTIVITY

Arab Insurance Group (B.S.C.) (the "Company", "parent company") is an international insurance company registered as a Bahraini Shareholding Company having its registered office at Arig House, Manama, Kingdom of Bahrain. The parent company and its subsidiaries (the "Group") are involved in provision of general (non-life) and life reinsurance and related service activities.

2. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board and are consistent with prevailing practice within the insurance industry.

The Group's financial statements are presented in U.S. Dollars, which is its functional currency as its share capital and a significant proportion of its business, assets and liabilities are denominated in that currency.

The consolidated financial statements are prepared under the historical cost convention as modified by the revaluation of land and building and certain investment assets.

Comparative figures have been reclassified and restated, where necessary, to conform to the current year's presentation.

The Group has adopted the following new and revised IFRS and interpretations which became effective as of 1 January 2018:

- IFRS 15 Revenue from Contracts with Customers
Standard issued May 2014

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including IAS 18 Revenue, IAS 11 Construction Contracts and IFRIC 13 Customer Loyalty Programmes. The adoption of this standard has no material impact on the financial statements.

- Amendments to IFRS 4 Insurance Contracts
Standard issued September 2016

Amendments to the standard permit entities issuing contracts within the scope of IFRS 4 a temporary exemption. The temporary exemption enables eligible entities to defer the implementation date of IFRS 9 for annual periods beginning 1 January 2021 at the latest. An entity may apply the temporary exemption from IFRS 9 if and only if

- (i) it has not previously applied any version of IFRS 9 before and

- (ii) its activities are predominantly connected with insurance on its annual reporting date that immediately precedes 1 April 2016.

The Group has determined that its activities are predominantly connected with insurance for the year ended 31 December 2015 as insurance liabilities exceed 90% of total liabilities. The Group has therefore applied the temporary exemption from IFRS 9 (see note 33). The temporary exemption from IFRS 9 has been applied from 1 January 2018.

The following standards and interpretations have been issued but are applicable for periods subsequent to the year ended 31 December 2018:

- IFRS 9 Financial Instruments
Standard issued July 2014

IFRS 9 replaces the existing IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. The standard is applicable from 1 January 2018 with early adoption permitted. However as stated above, the Group has applied the temporary exemption from IFRS 9 available under IFRS 4 and will therefore only apply this standard for annual periods beginning 1 January 2021. In the interim the Group will continue to apply IAS 39 to its financial assets and liabilities. Required disclosure on applying the temporary exemption from IFRS 9 are provided in note 33.

- IFRS 16 Leases
Standard issued in January 2016

IFRS 16 introduces a single, accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are optional exemptions for short-term leases and leases of low value items. Lessor accounting remains similar to the current standard i.e. lessors continue to classify leases as finance or operating leases. The standard is effective for annual reporting periods beginning on or after 1 January 2019. The Group is not expecting any material impact from the adoption of this standard.

- IFRS 17 Insurance Contracts
Standard issued in May 2017

IFRS 17 Insurance Contracts establishes principles for the recognition, measurement, presentation and

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

disclosure of insurance contracts within the scope of the standard. This standard replaces IFRS 4 Insurance contracts. The objective of IFRS 17 is to ensure that an entity provides relevant information that faithfully represents those contracts. This information gives a basis for users of financial statements to assess the effect that insurance contracts have on the entity's financial position, financial performance and cash flows. The standard is applicable for annual periods beginning on or after 1 January 2021, with comparative figures required for the prior period. The Group is assessing the impact of IFRS 17 on its consolidated financial statements.

The Group did not early-adopt new or amended standards in 2018.

The significant accounting policies of the Group are as follows:

BASIS OF CONSOLIDATION

The consolidated financial statements include the accounts of the parent company and all of its subsidiaries made up to 31 December 2018 except for Arig Capital Limited which is consolidated one quarter in arrears.

Subsidiaries are defined as entities that are controlled by the Group, on the basis of

- i) power over the entity;
- ii) the exposure to variable returns from the entity; and
- iii) the ability to use its power to affect the amount of returns.

The purchase method is used to account for acquisitions.

All intra-group transactions, balances and unrealised surpluses and deficits on transactions between group companies have been eliminated on consolidation. Where necessary, the accounts of subsidiaries have been restated to ensure consistency with the accounting policies adopted by the Group.

A listing of the principal subsidiaries is set out in note 34. In the parent company, these investments are accounted under IAS 27, Separate Financial Statements.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash on hand, bank balances and short-term highly liquid assets (placements with financial institutions) with original maturities of three months or less when acquired that are subject to insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments. Bank balances that are restricted and not available for day to day operations of the Group are not included in cash and cash equivalents.

INVESTMENTS

Investment securities are classified as 'at fair value through profit or loss', which includes financial assets held for trading and those designated at fair value on initial recognition, 'available for sale', 'held to maturity' or 'loans and receivables'. Management determines the appropriate classification of investments at the time of purchase.

Securities are classified as at fair value through profit or loss if they are acquired for the purpose of generating a profit from short-term fluctuations in price or if so designated by management. Derivative financial instruments that are not designated as accounting hedge are classified as at fair value through profit or loss. Investments with fixed or determinable payments and fixed maturity that the management has the intent and ability to hold to maturity are classified as held to maturity. Financial instruments with fixed or determinable payments and that are not quoted in an active market are categorised as loans and receivables. Securities intended to be held for an indefinite period of time and those that are not classified as at fair value through profit or loss, held to maturity or loans and receivables, which may be sold in response to needs for liquidity or changes in interest rates, are classified as available for sale.

All purchases and sales of investments are recognised at the settlement date. All investment assets are recognised initially at cost. After initial recognition, investments are valued using principles described below.

Investments at fair value through profit or loss and investments available for sale are carried at fair value. Held to maturity investments and loans and receivables are carried at amortised cost, less any adjustment necessary for impairment.

Fair values are measured using market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in valuation (see note 32).

PROVISION FOR IMPAIRMENT OF FINANCIAL ASSETS

A provision is made in respect of a financial asset for which there is an objective evidence of impairment if its carrying amount is greater than its estimated recoverable amount.

Provisions for assets carried at amortised cost are calculated as the difference between the carrying amount of the assets and the present value of expected future cash flows discounted at their original effective interest rate. By comparison, the recoverable amount of an instrument carried at cost is the present value of expected future cash flows discounted at the current market rate of interest for a similar financial asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the case of available for sale financial assets, the Group assesses at each statement of financial position date whether there is an objective evidence of impairment of such assets. If any such evidence exists, the impairment measured as the difference between acquisition cost and recoverable amount less any impairment previously recognized in the income statement is recognized in consolidated statement of income. Evidence of impairment considers among other factors significant or prolonged decline in market values and financial difficulties of the issuer. Impairment recognised is not reversed subsequently except in case of debt instruments.

INVESTMENT IN ASSOCIATED COMPANIES

Investments in associated companies are accounted for using the equity method, less any adjustment necessary for impairment. Associated companies are defined as those companies over which the Group is able to exercise significant influence but not control or joint control over the financial and operating policy decisions.

INSURANCE RECEIVABLES

Insurance receivables are carried at anticipated realisable values after provision for impairment. A provision for impairment is established when there is evidence that the Group will not be able to collect all amounts due according to the terms of the receivables. In case of receivables not specifically impaired, a collective evaluation of impairment is carried out based on historical loss experience. Bad debts are written off during the year in which they are identified. The identification of bad debts is based on an analysis of the financial position of the counter party.

INSURANCE DEPOSITS

Insurance deposits comprise premium and claim deposits with cedants in accordance with policy terms and are carried at anticipated realisable values after provision for impairment. A provision for impairment is established when there is evidence that the Group will not be able to collect all amounts due according to the terms of the deposits. In case of deposits not specifically impaired, a collective evaluation of impairment is carried out based on historical loss experience. Irrecoverable deposits are written off during the year in which they are identified. Irrecoverable deposits are identified on an analysis of the financial position of the counter party.

INTANGIBLE ASSETS

Expenditure on software, patents, present value of future profits on acquisition of portfolio and licenses are capitalised and amortised using the straight line basis over their expected useful lives, not exceeding a period of 5 years.

Costs associated with developing computer software programmes are recognised as an expense when incurred. However, costs that are clearly associated with an identifiable and unique product, which will be controlled by the Group and has a probable benefit exceeding the costs beyond one year, are recognised as intangible assets. Costs include staff costs of the development team and an appropriate portion of relevant overheads.

Expenditure, which enhances and extends the benefits of computer software programmes beyond their original specifications and lives is recognised as a capital improvement and added to the original cost of the software. The carrying amount of intangible assets is reviewed annually and adjusted for impairment where it is considered necessary.

PROPERTY AND EQUIPMENT

Property and equipment are stated at cost less accumulated depreciation except for land and building which are carried at their revalued amount being fair value on date of valuation on a rolling basis by independent external valuers, less accumulated depreciation. On revaluation, any increase in the carrying amount of the asset is carried in the shareholders' equity as Property Revaluation Reserve and any decrease is recognised as an expense, except to the extent that it reverses decreases or increases previously recognised through income or shareholders' equity. The balance in the Property Revaluation Reserve is transferred directly to Retained Earnings on sale of property and realization of surplus. Further, the difference between depreciation based on the revalued carrying amounts and the depreciation based on original cost of the property is transferred directly from Property Revaluation Reserve to Retained Earnings.

The cost of additions and major improvements are capitalised; maintenance and repairs are charged to expense as incurred. Gains or losses on disposal are reflected in other income. Depreciation is provided on straight-line basis over the expected useful lives of the assets, which are as follows:

Building	40 years
Electrical and mechanical	20 years
Information systems, furniture, equipment and others	3-5 years

Useful lives and residual values are reassessed at each reporting period and adjusted accordingly. At each reporting date, the Group reviews the carrying amounts to determine whether there is any indication of impairment.

If any such indication exists, then the assets recoverable amount is estimated.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash Generating Units (CGU).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

PROVISIONS

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Employee entitlements are recognised when they accrue to employees, with a provision being carried for the estimated liability as a result of services rendered up to the statement of financial position date.

POST EMPLOYMENT OBLIGATIONS

The Group operates a number of defined benefit plans for its employees.

For defined benefit plans, the accounting cost is charged to the consolidated statement of income so as to spread it over the expected service lives of employees. The accounting costs under these plans are measured as the present value of the estimated future cash outflows using interest rates of government securities, which have terms to maturity approximating the terms of the related liability.

TREASURY STOCK

Treasury stock representing shares purchased by the parent company or its consolidated subsidiaries are carried at cost with the exception of holdings as on the date of capital reduction, 4 July 2002, which are carried at nominal value. All treasury stock is presented as a deduction from shareholders' equity and gains and losses from sale of these shares are presented as a change in shareholders' equity.

RECOGNITION OF UNDERWRITING RESULT

Insurance business is accounted for in a manner consistent with prevailing practice within the insurance industry, more specifically, on an annual accounting basis. Specific accounting policies relating to individual items of insurance revenues and costs and technical provisions are explained below for each relevant item.

PREMIUMS

Gross premiums written comprise the total premiums in relation to contracts incepting during the financial year, together with adjustments arising in the financial year to premiums receivable in respect of business written in previous financial years. It includes an estimate of pipeline premiums, being those premiums written but not reported to the Group at the statement of financial position date. Pipeline premiums net of related pipeline acquisition costs are reported as accrued insurance premiums.

Premiums, net of reinsurance, are taken to income over the terms of the related contracts or policies. Unearned premiums are those proportions of the premiums accounted for, which relate to periods of risk that extend beyond the end of the financial year; they are calculated based on a time apportionment basis. A provision for unexpired risks is made for estimated amounts required over and above provisions for unearned premiums to meet future claims and related expenses on business in force at the statement of financial position date. Such provision, where necessary, is made on the basis of an assessment of segments in which policies with similar risk profile are grouped together.

CLAIMS AND RELATED EXPENSES

Claims and related expenses are accounted for based on reports received and subsequent review on an individual case basis. Provision is made to cover the estimated ultimate cost of settling claims arising out of events, which have occurred by the end of the financial year, including unreported losses, and claims handling expenses. Provision for unreported claims is established based on actuarial analysis and application of underwriting judgment having regard to the range of uncertainty as to the eventual outcome for each category of business.

POLICY ACQUISITION COSTS

Commissions, taxes, brokerages and other variable underwriting costs directly associated with acquiring business are amortised over the period in which the related premiums are earned. Policy acquisition costs that relate to periods of risk that extend beyond the end of the financial year are reported as deferred policy acquisition costs.

REINSURANCE ARRANGEMENTS

As part of managing its insurance risks, the Group enters into contracts with other reinsurers for compensation of losses on insurance contracts issued by the Group.

Compensations receivable from reinsurers are estimated in a manner consistent with the corresponding claim liability. The benefits and obligations arising under reinsurance contracts are recognised in income and the related assets and liabilities are recognised as accounts receivable, reinsurers' share of technical reserves and accounts payable.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

LIABILITY ADEQUACY TEST

At each statement of financial position date, liability adequacy tests are performed to ensure adequacy of the contractual liabilities net of related deferred acquisition costs. In performing these tests, current best estimates of future contractual undiscounted cash flows and claims handling and administrative expenses are considered. The tests are performed on a portfolio basis where policies with similar risk profile are grouped together as a portfolio.

INVESTMENT INCOME

Investment income comprises interest and dividend receivable for the financial year. Gains and losses arising from changes in the fair value of investments at fair value through profit or loss are included in the income statement in the period in which they arise. Gains and losses arising from changes in the fair value of available for sale investments are recognised in other comprehensive income and carried in investment revaluation income as part of equity. When available for sale investments are disposed or are impaired, the related fair value adjustments are included in the income statement.

Investment income arising from insurance business investment assets are allocated to the underwriting results of insurance businesses based on the proportion of their respective insurance funds to shareholders' funds during the financial year.

FOREIGN CURRENCY TRANSLATION

Transactions denominated in currencies other than U.S. Dollars are recorded at the rates ruling at the date of the transaction. All monetary and non-monetary assets carried at fair value denominated in currencies other than U.S. Dollars are translated at year-end exchange rates.

Unrealised gains or losses on translation are taken to income except in respect of non-monetary available for sale investments, which are taken to other comprehensive income until they are disposed.

Unrealised gains and losses on translation of financial statements of subsidiaries are included in equity. Other foreign currency gains and losses are taken to income.

DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING

In the ordinary course of its business, the Group uses forward foreign exchange contracts as fair value hedges to protect its exposures in respect of foreign currency denominated investments and insurance liabilities and these contracts are carried at fair value.

Where a fair value hedge meets the conditions prescribed by International Financial Reporting Standards for qualifying as an effective hedge, gains or losses from remeasuring forward foreign exchange contracts and gains or losses on hedged assets attributable to the hedged risk are recognised in income.

Where the hedge is not effective, gains or losses from remeasuring forward foreign exchange contracts are recognised in income. Gains or losses on hedged assets are recognised in income except in respect of non-monetary available for sale investments, which are taken to equity until they are disposed.

The gain or losses from remeasuring insurance liabilities and related foreign exchange contracts are recognised in income.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In the process of applying its accounting policies, the Group makes estimates and judgements that have an impact on the amounts recognised and reported in the financial statements. These estimates and judgements are based on historical experience, observable market data, published information and other information including expectations of future events that are believed to be reasonable under the circumstances. The estimates and judgements that have a significant impact on the recognised amounts in the financial statements and the processes used to determine these estimates and judgements are described below:

i) Claims and related expenses

The estimate of ultimate losses arising from existing insurance contracts includes unreported claims. Provisions for unreported claims are estimated based on actuarial analysis and application of underwriting judgment having regard to the range of uncertainty as to the eventual outcome for each category of business. The ultimate insurance liability also includes the costs to administer the claims. See note 4 (v).

ii) Ultimate premiums

The estimate of ultimate premiums is based on premium income estimates provided by cedants which is then adjusted to reflect underwriters' judgement taking into account market conditions and historical data. This estimate is subject to review by underwriters and actuaries.

Other significant estimates include fair value measurement and impairment of financial assets as disclosed in note 2.

FOR THE YEAR ENDED 31 DECEMBER 2018

4. MANAGEMENT OF INSURANCE RISKS

The Group's activities expose it to a variety of financial and other risks: market risk (including foreign exchange risk, price risk and interest rate risk), credit risk, underwriting risk and liquidity risk.

The following is a summary of policies adopted to mitigate the key insurance risks facing the Group:

i) Underwriting risks

The Group manages its underwriting risks principally through policies and guidelines for accepting risks and reinsurance arrangements.

Risks are accepted based on an evaluation of pricing and prior underwriting experience in accordance with underwriting guidelines that have been laid out for each line of business. Underwriting guidelines are constantly reviewed and updated to take account of market developments, performance and opportunities. Accumulation limits are set to control exposures to natural hazards and catastrophes. Various underwriting and approval limits are specified for accepting risks.

Acceptance of risks that do not meet specified minimum criteria are subject to agreement of an Underwriting Review Committee comprising representatives from the Marketing, Underwriting and Actuarial functions.

The reinsurance strategy of the Group is designed to protect exposures to individual and event risks based on current risk exposures through cost effective reinsurance arrangements.

Reserving risks are addressed by ensuring prudent and appropriate reserving for business written by the Group, thus ensuring that sufficient funds are available to cover future claims. Reserving practices involve the use of actuarial analysis and application of underwriting judgement. These are supplemented by periodical independent actuarial reviews for determining the adequacy of reserves.

ii) Credit risks

Credit risk under insurance contracts is the risk that a counterparty will be unable to pay amounts in full when due.

Credit risk is controlled through terms of trade for receipt of premium and in certain cases enforcement of premium warranty conditions. Most of the counterparties are insurance companies that are generally not rated. However, there are no significant exposures from any one counterparty.

Reinsurance arrangements are effected with reinsurers whose creditworthiness is assessed on the basis of satisfying minimum rating and financial strength criteria. Exposure to any single reinsurer generally does not exceed a maximum of 25% of total exposure and risks are generally placed with counterparties with minimum investment grade rating except for proportional treaty arrangements placed on reciprocal basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

4. MANAGEMENT OF INSURANCE RISKS (Continued)

Credit risks relating to reinsurance arrangements are analysed as follows:

	(US\$ '000)		
	Receivables	Share of claims outstanding	Total
2018			
Balance relating to reinsurers:			
- With investment grade rating	6,443	40,476	46,919
- Other	896	4,440	5,336
	7,339	44,916	52,255
2017			
Balance relating to reinsurers:			
- With investment grade rating	2,045	16,541	18,586
- Other	5,923	2,811	8,734
	7,968	19,352	27,320

iii) Currency risks

As the Company writes business in various currencies, it is exposed to currency risk. Foreign exchange currency risks are hedged where exposures are significant and facility to hedge is available.

	(US\$ '000)				
	Euro	Pound Sterling	Indian Rupee	Kuwaiti Dinar	Other
2018					
Reinsurance assets (liabilities), net	(302)	(628)	(8,553)	(13,722)	(20,126)
Hedged	-	-	-	-	-
2017					
Reinsurance assets (liabilities), net	(651)	(1,328)	(8,510)	(17,915)	(27,329)
Hedged	584	1,056	-	-	-

iv) Liquidity risks

Liquidity risk is the risk that cash may not be available to pay obligations when due. Limits have been specified in the investment policy and guidelines that requires a significant portion of investment funds representing insurance liabilities to be held in cash or readily marketable debt securities.

v) Sensitivity analysis

The sensitivity of the Group's income to market risks is as follows:

	(US\$ '000)	
	2018	2017
5% increase in loss ratio	(10,698)	(8,997)
5% decrease in loss ratio	10,698	8,997
10% increase in US Dollar exchange rate	7,765	9,149
10% decrease in US Dollar exchange rate	(9,491)	(11,183)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

5. CASH AND BANK BALANCES

	2018	(US\$ '000) 2017
Cash and bank balances	76,239	62,938
Deposits with maturity within 3 months	33,669	-
Cash and cash equivalents	109,908	62,938
Deposits with maturity over 3 months	6,027	19,735
	115,935	82,673

Details of significant terms and conditions, exposures to credit, interest rate and currency risks are as follows:

i) Credit risk:

Bank balances and deposits with short term maturities are held with leading financial institutions. The Group limits its concentration of time deposits with any one financial institution to a maximum of 10% of shareholders' equity.

ii) Interest rate risk:

	2018	2017
Interest receivable basis:		
- Bank balances	Daily/Monthly	Daily/Monthly
- Deposits with short term maturities	On maturity	On maturity
Effective rates	0.01% - 4.30%	0.01% - 2.78%

As the deposits are short term maturities, there is no sensitivity to interest rate fluctuation.

iii) Currency risk:

	2018	(US\$ '000) 2017
U.S. Dollar	91,712	61,895
Bahraini Dinar	11,479	10,494
Pound Sterling	10,981	6,973
Saudi Riyal	480	433
Euro	464	132
Other	819	2,746
	115,935	82,673

6. INVESTMENTS (Continued)

Movements in the Group's impairment recognised on available for sale investments are as follows:

	2018	2017
At 1 January	22,011	21,515
Impairment recognised during the year		
- Unlisted companies	-	1,368
- Others	206	1,241
Reversal on sale of investments	(8,594)	(2,113)
At 31 December	13,623	22,011

(US\$ '000)

Debt securities amounting to US\$ 101.8 million (2017: US\$ 183.6 million) have been pledged as security for reinsurance trust agreements, letters of credit, guarantees and borrowings.

Details of significant exposures to credit, interest rate and currency risks on investments are as follows:

i) Credit risk:

The Group limits its investment concentration in debt securities in any one investee and in any one industry group to 10% and 20% respectively, of the total debt securities portfolio.

The Group also limits its investment concentration in common stock of listed companies of any one issue and any one issuer to 5% and 10% respectively, of its budgeted equity portfolio at the time of purchase.

ii) Debt securities - interest rate risk:

	Interest receivable basis	Effective rates	Coupon rates
2018			
Supra-nationals and OECD country government securities	Monthly/Semi-annual/Annual	0.750% - 2.625%	0.750% - 2.625%
Other investment grade debt securities	Monthly/Semi-annual/Annual	0.125% - 7.150%	0.125% - 7.150%
Other debt securities	Monthly/Semi-annual/Annual	2.788% - 5.500%	2.788% - 5.500%
2017			
Supra-nationals and OECD country government securities	Monthly/Semi-annual/Annual	0.750% - 1.875%	0.750% - 1.875%
Other investment grade debt securities	Monthly/Semi-annual/Annual	0.130% - 8.500%	0.130% - 8.500%
Other debt securities	Monthly/Semi-annual/Annual	2.383% - 5.500%	2.383% - 5.500%

FOR THE YEAR ENDED 31 DECEMBER 2018

6. INVESTMENTS (Continued)

v) Common stock

Common stocks have no fixed maturity dates and are generally not exposed to interest rate risk. However, they are subject to price risk and its sensitivity is shown in note 7. Dividends are generally declared on an annual basis.

The book value of common stock classified by currencies in which they are denominated are as follows:

	2018	(US\$ '000) 2017
U.S. Dollar	33,610	44,601
Euro	2,156	3,993
Bahraini Dinar	1,192	628
Saudi Riyal	11,515	10,660
Pound Sterling	9,338	13,608
Japanese Yen	1,400	2,101
Other	8,596	10,370
	67,807	85,961

vi) Commitments

The Group has commitments in respect of uncalled capital in available for sale investments amounting to US\$ 8.1 million (2017: US\$ 8.8 million).

7. SENSITIVITY ANALYSIS

The sensitivity of the Group's profit or loss and total equity to market risks on its cash and cash equivalents and investments is as follows:

	2018		(US\$ '000) 2017	
	Income	Equity	Income	Equity
Interest rate				
+ 100 basis points shift in yield curves-debt instruments	(2,407)	(7,661)	(2,253)	(11,743)
- 100 basis points shift in yield curves-debt instruments	2,378	7,569	2,178	11,352
Currency risk				
10% increase in US Dollar exchange rate	(7,704)	-	(4,125)	-
10% decrease in US Dollar exchange rate	9,416	-	5,306	-
Equity price				
10% increase in equity prices	5,671	723	6,861	1,307
10% decrease in equity prices	(5,671)	(723)	(6,861)	(1,307)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

8. ACCRUED INCOME

	2018	(US\$ '000) 2017
Accrued insurance premiums		
Expected to be received :		
- Within 12 months	57,109	73,499
- After 12 months	27,218	26,863
	84,327	100,362
Accrued interest		
- Expected to be received within 12 months	2,258	2,734
	86,585	103,096

9. INSURANCE RECEIVABLES

	2018	(US\$ '000) 2017
Balances due :		
- Within 12 months	127,184	110,755
- After 12 months	189	168
	127,373	110,923

Movements in the Group's provision for impaired receivables are as follows:

	2018	(US\$ '000) 2017
At 1 January	14,882	14,230
Provision for impairment	139	652
Impaired receivables written-off	(6)	-
31 December	15,015	14,882

The individually impaired receivables mainly relate to counter party in financial difficulty. The ageing of these receivables is as follows:

	2018	(US\$ '000) 2017
Over two years	3,330	4,238
	3,330	4,238

The ageing analysis of receivables that are past due and not considered impaired is as follows:

	2018	(US\$ '000) 2017
Upto 6 months	3,425	6,610
6 to 12 months	6,470	4,839
	9,895	11,449

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

5% to 10%	28.2	28.2	2	2	14.3	14.2
10% and above	109.8	109.8	4	4	55.4	55.4

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

20. SHAREHOLDERS' EQUITY (Continued)

ii) Treasury stock

The Company held 21,967,818 of its own shares at 31 December 2018 (2017: 21,967,818 shares) which are carried at cost of US\$ 14,793,000 (2017: US\$ 14,793,000).

iii) Legal reserve

In accordance with applicable legal provisions and Articles of Association, the Group is required to set aside 10% of net profits each year to build a Legal reserve up to a maximum of 100% of the paid up value of its share capital.

iv) Investment revaluation reserve

Investment revaluation reserve comprises gains or losses arising from remeasurement of available for sale investment assets. These gains or losses are carried in the reserve until the assets are disposed of, at which time the gains or losses are included in income.

v) Property revaluation reserve

Property revaluation reserve represents the difference between the cost of land and buildings less accumulated depreciation and their fair values. Further, the difference between depreciation based on the revalued carrying amounts and the depreciation based on original cost of the property is transferred directly from Property revaluation reserve to Retained earnings.

vi) Capital management

The Group's total capital comprises paid-up capital, legal reserve and retained earnings less treasury shares. The Group's policy is to maintain a strong capital base so as to maintain client, investor and market confidence and to sustain future development of the business. The parent company is regulated by Central Bank of Bahrain, which sets and monitors capital requirement for the parent company. Central Bank of Bahrain (CBB) requires the parent company to compute the solvency margin requirement in accordance with provisions of the CBB Rule Book. The Company is in compliance with the required margin of solvency.

Additionally, the Company manages its capital adequacy on an evaluation of its capital requirement through risk based capital models.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

22. SEGMENT INFORMATION

i) Analysis of revenue by primary business segment

The Group's reinsurance business consists of two main business segments, Non-life and Life. Non-life business primarily consists of Property, Engineering, Marine, Accident, Whole Account and Other classes. Life business mainly involves short term group life policies and long term life policies. Life portfolio does not contain investment linked policies.

(US\$ '000)

(Losses) earnings per share	US cents	(27.9)	3.6

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

28. POST EMPLOYMENT BENEFITS

The Group operates a number of post-employment plans on defined benefit basis. Eligibility for participation in the defined benefit plans is based on completion of a specified period of continuous service or date of hire. Benefits are based on the employee's years of service.

The principal assumptions used for accounting purposes were:

	2018	2017
Discount rate	4.2%	2.8%
Expected return on assets	4.2%	2.8%
Future salary increases	3.3%	3.3%

The movements in the liability recognised in the consolidated statement of financial position are:

	(US\$ '000)	
	2018	2017
Balance at 1 January	12,203	12,398
Accruals for the year	1,577	1,532
Payments during the year	(1,174)	(1,727)
Balance at 31 December	12,606	12,203

29. FORWARD FOREIGN EXCHANGE CONTRACTS

In the ordinary course of its business, the Group uses forward foreign exchange contracts to hedge its exposure in respect of foreign currency denominated investments and insurance liabilities. In the event that the item being hedged is sold or settled prior to maturity of the forward foreign exchange contract, it is generally the Group's policy to enter into another offsetting forward foreign exchange contract of the same amount and maturity date. The notional amounts of these financial instruments are not recognised in the Group's consolidated financial statements but their fair values are recognised as assets or liabilities, as appropriate, with changes in fair value being taken to the consolidated statement of income. The contracts oblige the Group to exchange cash flows to be received in the future from foreign currency denominated investments for U.S. Dollars at predetermined exchange rates. The counter parties in respect of these transactions are leading financial institutions.

i) Forward foreign exchange contracts – by currency

	2018		2017	
	Notional amount purchases	Notional amount sales	Notional amount purchases	Notional amount sales
Euro	92	10,469	584	9,462
Pound Sterling	129	3,396	1,056	3,369
Japanese Yen	92	1,417	-	1,961
Others	-	1,373	-	756
	313	16,655	1,640	15,548

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

29. FORWARD FOREIGN EXCHANGE CONTRACTS (Continued)

Notional amounts are the contract amounts used to calculate the cash flows to be exchanged. They are a common measure of the volume of outstanding transactions, but do not represent credit or market risk exposures.

ii) Forward foreign exchange contracts - remaining term to maturity

All of the forward foreign exchange contracts outstanding are due in one year or less.

iii) Forward foreign exchange contracts - unrealised gains and losses

The following table summarises the fair value of the Group's hedging portfolio of forward foreign exchange contracts at the statement of financial position date, segregating the items between those that are in an unrealised gain position from those that are in an unrealised loss position.

(US\$ '000)

	2018		2017	
	Purchases	Sales	Purchases	Sales
Unrealised gains	3	80	42	-
Unrealised losses	-	(70)	-	(319)
	3	10	42	(319)

Other liabilities	-	-	-	-	32,451	32,451	32,451

The information disclosed in the table above is not indicative of the net worth of the Group.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

32. FAIR VALUE DISCLOSURE (Continued)

When there is no quoted price in an active market, the Group uses valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction.

The following methods and assumptions were used to estimate the fair value of the financial instruments:

i) General

The book values of the Group's financial instruments except investments and forward foreign exchange contracts were deemed to approximate fair value due to the immediate or short term maturity of these financial instruments.

Hence, the fair value measurement details are not disclosed.

ii) Investments

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. as derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted market prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Valuation techniques include net present value and discounted cash flow models and other valuation models. Assumptions and inputs used in valuation includes risk free and benchmark interest rates, bond and equity prices, and foreign exchange rates. The objective of valuation techniques is to arrive at fair value measurement that reflects the price that would be received on sale of the asset at the measurement date.

The table below analyses financial instruments, measured at fair value as at the end of the year, by level in the fair value hierarchy into which the fair value measurement is categorized:

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

32. FAIR VALUE DISCLOSURE (Continued)

The tables below show movements in the Level 3 financial assets measured at fair value:

(US\$ '000)

	Unlisted equity	Others	Total
Balance at 1 January 2018	4,279	18,389	22,668
Gain (loss) recognised in:			
- Statement of income	73	-	73
- Other comprehensive income	(381)	162	(219)
Investments made during the year	105	2,481	2,586
Investments redeemed during the year	(204)	(3,258)	(3,462)
Balance at 31 December 2018	3,872	17,774	21,646
Balance at 1 January 2017	6,495	17,100	23,595
Gain (loss) recognised in:			
- Statement of income	(707)	(801)	(1,508)
- Other comprehensive income	(146)	1,924	1,778
Investments made during the year	112	4,229	4,341
Investments redeemed during the year	(1,475)	(4,063)	(5,538)
Balance at 31 December 2017	4,279	18,389	22,668

The carrying values of the investment held in level 3 are based on unobservable inputs and reflects proportional share of the fair values of the respective companies and their underlying net assets. The Group does not expect the fair value of assets under level 2 and level 3 to change significantly on changing one or more of the unobservable inputs. The valuations of these investments are reviewed quarterly and updated as necessary on the basis of information received from investee and investment managers. For the year ended December 31, 2018, there were no transfers in and out of level 1, level 2 and level 3 (2017: nil). The fair values are estimates and do not necessarily represent the price at which the investment would sell. As the determination of fair values involve subjective judgments, and given the inherent uncertainty of assumptions regarding capitalization rates, discount rates, leasing and other factors, the amount which will be realized by the Company on the disposal of its investments may differ significantly from the values at which they are carried in the consolidated financial statements, and the difference could be material.

The Group does not expect the fair value of assets under level 3 to change significantly on changing one or more of the measurable / observable inputs.

iii) Forward foreign exchange contracts

The fair value of forward foreign exchange contracts, used for hedging purposes, is based on quoted market prices.

iv) Fair value less than carrying amounts

The fair value of fixed interest debt securities fluctuates with changes in market interest rates. The book value of financial assets held to maturity has not been reduced to fair value where lower, because such market rate variations are considered temporary in nature and management intends, and has the financial resources and capacity, to generally hold such investments to maturity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

33. TEMPORARY EXEMPTION FROM IFRS 9 DISCLOSURE

a) Fair value and changes in fair value

	Fair value	(US\$ '000) Changes in fair value during the year
i) Financial assets having cash flows that are solely payment of principal and interest.	281,960	(3,884)
ii) All other financial assets that are not solely payment of principal and interest.	497,657	(3,374)
	779,617	(7,258)

b) Credit risk exposure relating to note 33 (a (i)) above:

	Book value	(US\$ '000) Fair value
Supra-nationals and OECD country governments	26,319	26,320
Other investment grade	223,444	223,470
Other	32,185	32,170
	281,948	281,960

34. PRINCIPAL SUBSIDIARIES and ASSOCIATES

i) Subsidiaries and Associates

At 31 December 2018, the principal subsidiaries of the Company were:

	Country of incorporation	Ownership	Non-controlling interests	Principal activities
Arig Capital Limited	United Kingdom	100%	Nil	Reinsurance
Gulf Warranties W.L.L.	Kingdom of Bahrain	100%	Nil	Warranty
Takaful Re Limited (under run-off)	United Arab Emirates	54%	46%	Retakaful
Arig Insurance Management (DIFC) Ltd. (under voluntary liquidation)	United Arab Emirates	100%	Nil	Insurance Manager

All holdings are in the ordinary share capital of the subsidiaries concerned and are unchanged from 31 December 2017. The Company holds 49% and 25% of the equity shares in its associate companies Arima Insurance software W.L.L. and Globemed Bahrain W.L.L., Bahrain respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

34. PRINCIPAL SUBSIDIARIES and ASSOCIATES (Continued)

ii) Interest in Subsidiaries: Takaful Re Limited

	(US\$ '000)	
	2018	2017
Non-controlling interests	46%	46%
Total assets	83,697	92,499
Total liabilities	22,125	37,684
Net Assets	61,572	54,815
Revenue	(216)	(1,462)
Profit for the year	6,742	2,279
Total comprehensive income	6,759	1,853
Comprehensive income attributable to non-controlling interests	3,109	852
Net cash used in operating activities	(8,759)	(10,158)
Net cash provided by investing activities	44,128	9,448
Net cash used in financing activities	-	(25,000)
Net increase (decrease) in cash and cash equivalents	35,369	(25,710)

The subsidiary's policyholder funds are consolidated as these funds are controlled and managed by the subsidiary which is in a position to direct activities and operations.

iii) Interest in Subsidiaries: Gulf Warranties W.L.L.

There has been fraud committed by employees of the Group's subsidiary, Gulf Warranties W.L.L. Detailed investigations are at the final stage. Based on management's assessments, the entire probable loss estimates of US\$ 21.5 million have been provided for in the books of the subsidiary and consequently in the consolidated financial statements of the Group. This does not constitute admission of any liability beyond the share capital of Gulf Warranties W.L.L. The above estimated loss has led to substantial negative equity in the subsidiary. The Board of Directors of the Company decided, in its meeting held on 6 November 2018, not to support the Group's subsidiary. On 15 November 2018, the Board of Directors of the Company decided not to write any further business and recommended the liquidation of the Company.

iv) Interest in Subsidiaries: Arig Insurance Management (DIFC) Ltd.

The Group has not classified its subsidiary Arig Insurance Management (DIFC) Ltd. (under voluntary liquidation) as a discontinued operation as the subsidiary and the values involved are not material.

35. RELATED PARTY TRANSACTIONS

Related parties represent the Company's major shareholders, associate companies, directors and key management personnel of the Group and entities controlled, jointly controlled or significantly influenced by such parties.

Government of UAE controls 31.3% of shares in the Group through major shareholders Emirates Investment Authority, General Pension and Social Security Authority and Emirates Development Bank while Government of Libya controls 14.4% of shares in the Group through Central Bank of Libya. The Group does not have any significant transactions with these governments and entities controlled, jointly controlled or significantly influenced by these governments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018

35. RELATED PARTY TRANSACTIONS (Continued)

The following is the summary of transactions with related parties:

i) Associate companies

	(US\$ '000)	
	2018	2017
a) Service fees for administration services provided by Arig	38	89
b) Service fees for administration services provided by associate	799	705
c) Balances outstanding		
- Payables	89	100

ii) Compensation to directors and key management personnel

	(US\$ '000)	
	2018	2017
a) Directors		
- Attendance fees	79	65
- Travel expenses	144	160
b) Key management compensation		
- Salaries and other short-term employee benefits	1,710	1,607
- Post-employment benefits	318	426
- Employee long-term incentives	-	432
c) Balances payable to key management	4,855	4,586

All transactions with related parties are conducted on an arm's length basis. All outstanding balances from related parties are expected to be settled within 12 months. No provisions have been required in 2018 and 2017 for any outstanding amounts due from related parties.

36. CONTINGENCIES

The Group is a defendant against several ongoing litigations relating to its operations and labour matters. As per the legal counsel and the management, the Group has strong arguments against these cases and accordingly, no additional provision is required to be recorded in the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2018
