Independent auditors' report on review of condensed consolidated interim financial statements

The Board of Directors
Arab Insurance Group (B.S.C)
Kingdom of Bahrain

Date: 11 August 2020

Introduction

We have reviewed the accompanying 30 June 2020 condensed consolidated interim financial statements of Arab Insurance Group (B.S.C) (the "Company") and its subsidiaries (together the "Group"), which comprises:

- the condensed consolidated statement of financial position as at 30 June 2020;
- the condensed consolidated statement of profit or loss for the six month period ended 30 June 2020;
- the condensed consolidated statement of comprehensive income for the six month period ended 30 June 2020;
- the condensed consolidated statement of changes in equity for the six-month period ended 30 June 2020;
- the condensed consolidated statement of cash flows for the six-month period ended 30 June 2020; and
- notes to the condensed consolidated interim financial statements.

The Board of Directors of the Company is responsible for the preparation and presentation of this condensed consolidated interim financial statements in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2020 condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

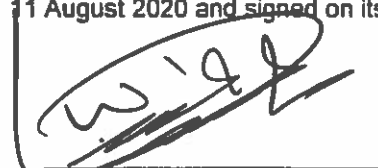

Emphasis Matter

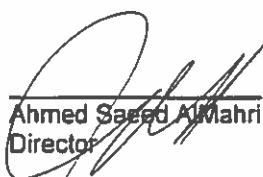

We draw attention to note 1 to the condensed consolidated interim financial statements, which indicates the board of directors' decision in its meeting held on 13 May 2019 to recommend the cessation of the underwriting activities of the Company, subject to regulatory authorities and shareholders' approval. Our conclusion is not modified in respect of this matter.

ARAB INSURANCE GROUP (B.S.C.)

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 JUNE 2020

1. INCORPORATION AND PRINCIPAL ACTIVITY

Arab Insurance Group (B.S.C.) (the "Company", "parent company") is an international insurance company registered as a Bahraini Shareholding Company having its registered office at Arig House, Manama, Kingdom of Bahrain. The parent company and its subsidiaries (the "Group") are involved in provision of general (non-life) and life reinsurance and related service activities.

The Board in its meeting held on 13th May 2019 resolved to recommend to the shareholders the cessation of the Company's underwriting activities. The Central Bank of Bahrain (CBB) was informed of the Board's decision and Extraordinary General Meeting has been scheduled on 13 August 2020 to discuss and decide on the Board's recommendation. The condensed consolidated financial statements are prepared on a going concern basis.

2. SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements of the Group has been prepared in accordance with International Accounting Standard 34 (Interim Financial Reporting) which allows the interim financial statements to be prepared in condensed form. The condensed consolidated interim financial statements does not include all of the information required for full annual consolidated financial statements, and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2019.

The Group's condensed consolidated interim financial statements are presented in U.S. Dollars, which is its functional currency as its share capital and a significant proportion of its business, assets and liabilities are denominated in that currency.

The accounting policies and methods of computation are consistent with the most recent consolidated financial statements of the Group at 31 December 2019 that were prepared in accordance with International Financial Reporting Standards (IFRS). Comparative figures have been reclassified, where necessary, to conform to the current period's presentation.

The Group has adopted all new and revised IFRS and interpretations applicable for accounting periods beginning on or after 1 January 2020 except IFRS 9 Financial Instruments, for which the Group has applied the temporary exemption available under IFRS 4 Insurance Contracts. Accordingly, the Group will apply this standard for annual period beginning 1 January 2023.

The impact of adopting these standards and interpretations is not significant on the Group's condensed consolidated interim financial statements.

On 11 March 2020, the Coronavirus (COVID 19) outbreak was declared a pandemic by the World Health Organization (WHO) and has rapidly evolved globally. COVID 19 has also brought about significant uncertainties in the global economic environment. Authorities have taken various measures to contain the spread including implementation of travel restrictions and quarantine measures.

The Board of Directors and management has been closely monitoring the impact of the COVID 19 developments on the Group's operations and financial position; including possible loss of revenue, impact on asset valuations, impairment etc. The Group has also put in place contingency measures, which include but are not limited to enhancing and testing of business continuity plans.

In preparing the condensed consolidated interim financial statements, judgements made by Board of Directors and management in applying the Group's accounting policies and sources of estimation are subject to uncertainty regarding the potential impacts of the current economic volatility and these are considered to represent management's best assessment based on available or observable information.

The Government of Kingdom of Bahrain has announced various economic stimulus programmes ("Packages") to support businesses in these challenging times. The Group has received benefits from these Packages in the form of reimbursement of salaries of Bahraini employees and waiver of Electricity and Water charges for the months of April, May and June 2020 which are recorded as other income (refer to note 16).

ARAB INSURANCE GROUP (B.S.C.)
NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (CONTD.)

2. SIGNIFICANT ACCOUNTING POLICIES (CONTD.)

The preparation of the condensed consolidated interim financial statements require management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. In preparing these condensed consolidated interim financial statement, the significant judgements made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2019. However, the process of making the required estimate of assumptions involved further challenges due to prevailing uncertainties arising from COVID-19 and required the management to make use of the best estimates and judgements.

3. SEASONALITY OF INTERIM OPERATIONS

As a result of the seasonality associated with the insurance business, the Group registers approximately 75% of its gross premiums during the first quarter of every year. Gross premiums written over the remainder of the financial year are almost evenly spread out. This seasonality does not however, have any material impact on the Group's underwriting result as the premiums are taken to income over the terms of the related contracts or policies.

4. MANAGEMENT OF RISKS

The Group's activities expose it to a variety of financial and other risks: market risk (including foreign exchange risk, price risk and interest rate risk), credit risk, underwriting risk and liquidity risk.

These condensed consolidated interim financial statements do not include all financial risk management information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group's consolidated financial statements as at 31 December 2019.

There have been no changes in the risk management function since the year end or in any risk management policies except the implementation of certain contingency plans for remote operations due to COVID 19.

Fair value at period-end	4,849	-	-

During the period, the Group's subsidiary Takaful Re Ltd, Dubai (TRL) upon seeking clarification from Dubai International Financial Centre (DIFC) identified that the portion of office premises sub-let by them could be given on a long-term lease that can qualify to be finance lease. Prior to that clarification, the entire office premises of TRL were classified as property and equipment. Pursuant to that clarification, TRL has reclassified the portions of office premises sub-let by them to investment property in accordance with the requirement of IAS 40: Investment Property. Accordingly, the fair value of the sub-let property classified as investment property by TRL has been transferred from property and equipment to investment property on 1 January 2020.

Investment property is carried at cost less accumulated depreciation and impairment. The fair value of investment property was assessed by an independent RICS registered valuer as at May 2020. The carrying value of investment property approximates its fair value as at 30 June 2020 and fair value measurement has been categorised as Level 3.

Land and Building comprise the head office property owned and occupied by the Company since 1984. Building also includes portion of office premises of TRL which is used for administration purpose. The building was revalued as at December 2019 by an independent RICS valuer after the Group's year-end. The diminution in value of the property by US\$ 1.4 million was accounted during the period and charged to profit and loss. Subsequently, sub-let portion of the office premises with a net value of US\$ 5.15 million was transferred to investment property as detailed in Note 9.

The information disclosed in the table above is not indicative of the net worth of the Group.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal market, or in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

When there is no quoted price in an active market, the Group uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction.

The following methods and assumptions were used to estimate the fair value of the financial instruments:

i) General:

The book values of the Group's financial instruments except investments and forward foreign exchange contracts were deemed to approximate fair value due to the immediate or short term maturity of these financial instruments.

Hence, the fair value measurement details are not disclosed.

ii) Investments:

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. as derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

21. FAIR VALUE DISCLOSURE (CONTD.)

- Level 3: valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted market prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Valuation techniques include net present value and discounted cash flow models and other valuation models. Assumptions and inputs used in valuation includes risk free and benchmark interest rates, bond and equity prices, and foreign exchange rates. The objective of valuations technique is to arrive at fair value measurement that reflects the price that would be received on sale of the asset at the measurement date.

The table below analyses financial instruments, measured at fair value as at the end of the period, by level in the fair value hierarchy into which the fair value measurement is categorized:

The carrying values of the investment held in level 3 are based on unobservable inputs and reflects proportional share of the fair values of the respective companies and their underlying net assets. The Group does not expect the fair value of assets under level 2 & level 3 to change significantly on changing one or more of the unobservable inputs. The valuations of these investments are reviewed quarterly and updated as necessary on the basis of information received from investee and investment managers. The Group recognises transfers between levels of the fair value hierarchy at the end of reporting period during which the change occurred. For the period ended 30 June 2020, there were no transfers in and out of level 1, level 2 and level 3 (31 December 2019: nil; 30 June 2019: nil). The fair values are estimates and do not necessarily represent the price at which the investment would sell. As the determination of fair values involve subjective judgments, and given the inherent uncertainty of assumptions regarding capitalisation rates, discount rates, leasing and other factors, the amount which will be realized by the Company on the disposal of its investments may differ significantly from the values at which they are carried in the condensed consolidated interim financial statements, and the difference could be material.

The Group does not expect the fair value of assets under level 3 to change significantly on changing one or more of the measurable / observable inputs.

iii. Forward foreign exchange contracts:

The fair value of forward foreign exchange contracts, used for hedging purposes, is based on quoted market prices.

vi. Fair value less than carrying amounts:

The fair value of fixed interest debt securities fluctuates with changes in market interest rates. The book value of financial assets held to maturity has not been reduced to fair value where lower, because such market rate variations are considered temporary in nature and management intends, and has the financial resources and capacity, to generally hold such investments to maturity.

ARAB INSURANCE GROUP (B.S.C.)

SUPPLEMENTARY DISCLOSURE TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS RELATED TO THE FINANCIAL IMPACT OF COVID 19

On 11 March 2020, the Coronavirus (COVID 19) outbreak was declared a pandemic by the World Health Organization (WHO) and has rapidly evolved globally. COVID 19 has also brought about significant uncertainties in the global economic environment. Authorities have taken various measures to contain the spread including implementation of travel restrictions and quarantine measures.

The management has been closely monitoring the impact of the COVID 19 developments on the Group's operations and financial position; including possible loss of revenue, impact on asset valuations, impairment etc. The Group has also put in place contingency measures, which include but are not limited to enhancing and testing of business continuity plans.

In preparing the condensed consolidated interim financial statement, judgements made by management in applying the Group's accounting policies and sources of estimation are subject to uncertainty regarding the potential impacts of the current economic volatility and these are considered to represent management's best assessment based on available or observable information.

The Government of Kingdom of Bahrain has announced various economic stimulus programmes ("Packages") to support businesses in these challenging times. The Group has received benefits from these Packages in the form of reimbursement of salaries of Bahraini employees and waiver of Electricity and Water charges for the months of April, May and June 2020.

The pandemic as well as the resulting measures have had an impact on the Group, particularly:

- Reduction in asset valuations for which the Group has made adequate provision for impairment.
- Investment losses due to market volatility and economic downturn
- COVID 19 related claims mainly from the Lloyd's portfolio
- Increase in General expense due to costs related to the necessary precautionary measures and business continuity plan requirements.
- Capital costs related to implementing contingency remote working plans

The overall direct impact of COVID 19 pandemic on the financial statements as at 30 June 2020 as assessed by the Group is as below:
